Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of restriction requirement in the reply filed on 2 July 2004 is acknowledged. The traversal is on the ground(s) that examination of the remaining two inventions would not present a serious burden on the examiner. However, this is not found persuasive as the examiner contends that searching through thousands of patents for two patentably distinct inventions, reasonably conveys a serious burden on the examiner.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 21-26 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 2 July 2004.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Brown.

Brown discloses a motorcycle comprising: a frame 14 including a steering head and an upper frame member extending rearwardly from the steering head; a fuel tank 22 coupled to the

upper frame member; a seat mount 108 coupled to the frame; and a seat assembly 18 having a front mount 70 coupled to the frame adjacent the fuel tank, a rear mount 66, and a frame mount 86 located between the front mount and the rear mount, the frame mount engaging the seat mount and having a latched configuration corresponding to a first position of the seat assembly with respect to the game, and an attached configuration corresponding to a second position of the seat assembly with respect to the frame, the frame mount and the seat mount cooperating with the front and rear mounts to couple the seat assembly to the frame in the latched configuration, wherein the seat mount comprises a mounting aperture 100, and the frame mount comprises a mounting stud 112, wherein the mounting stud includes an enlarged end portion and the mounting aperture is substantially keyhole-shaped and defines an enlarged portion and a reduced portion, and wherein the enlarged portion is sized to receive the enlarged end portion when the seat assembly is in the second position, and the reduced portion is sized to capture the enlarged end portion when the seat assembly is in the first position, thereby coupling the seat pan to the seat support, wherein the front mount includes a forward mounting tab that extends forwardly of the seat assembly, wherein the rear mount includes a rearward mounting tab that extends rearwardly of the seat assembly, further comprising a rear fender 40 coupled to the frame and extending above the rear wheel, and a fastener 142 extending through the rearward mounting tab and coupling the rearward mounting tab to the rear fender.

Allowable Subject Matter

5. Claims 4 and 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base

claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose removable motorcycle seats.
